# GP-CEM

## Breakthrough Cement Technology

GP-CEM presents an exceptional breakthrough in cement and concrete technology — offering an unparalleled combination of longevity, resistance to acid and heat, and environmental sustainability.

### Superior Longevity

Decades of structural performance

### Acid & Heat Resistant

Built for harsh environments

### Eco-Sustainable

Reduced carbon footprint

### Precision Engineered

Infrastructure-grade consistency

# EME Lighting

CN Zhongshan City, China's Lighting Capital

*Where architecture meets illumination.*

EME Lighting creates lighting that doesn't just illuminate a space but rather defines it. Trusted by the world's most prestigious hotels, royal residences, and landmark developments, every piece is designed and crafted to make an unforgettable first impression

Chosen by five-star hotels and presidential residences across 120+ countries.

A 66,000 m<sup>2</sup> dedicated factory means no project is too large, too complex, or too custom. Every fixture is engineered in-house, from first sketch to final installation

A team of over 300 designers, engineers, and craftspeople. Each project receiving the same level of precision and care as the last.

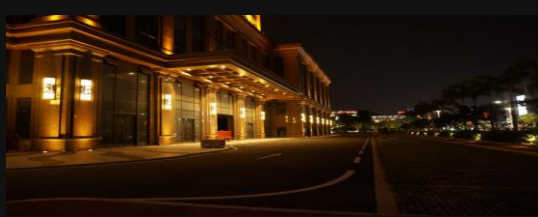

EME's range covers the full spectrum of luxury lighting. Every fixture developed, finished, and tested in-house to international standards before it leaves the factory.
